**Subject: ICI Detective Symposium (Virtual) – Request for Workshop Hosts**

On May 16-18, 2023, a virtual Robert Presley Institute of Criminal Investigation (ICI) Detective Symposium will be offered, tuition free, to California detectives and criminal investigators from POST-participating agencies. The previous virtual version of the symposium, held in May 2021, was a significant success and remotely attended by more than 1,600 individuals. This time, to further maximize the pool and quality of potential workshops offered during the symposium while meeting the needs of the field, all POST-participating agencies interested in hosting one of the virtual workshops are encouraged to submit an application to POST by completing a brief [survey](#), no later than November 16, 2022. Examples of workshops can include a case study, an investigative technique, an investigative resource, or anything else that would provide a training benefit to California detectives and criminal investigators.

For questions regarding the ICI Detective Symposium (Virtual) you may contact [Gerald Fernandez](#), Law Enforcement Consultant with the Training Program Services Bureau, at [\(916\) 227-3933](#).
